## Editorial policy

*Functional Ecology* publishes short, original papers in a wide range of ecological topics, but particularly emphasizing the fields of physiological, biophysical and evolutionary ecology. Papers may describe experimental, observational or theoretical studies on terrestrial, freshwater or marine systems. The Editors are especially keen to publish papers that blend between these subject areas. Work that is purely descriptive and/or concerned exclusively and specifically with the population dynamics of organisms will not be accepted unless it sheds light on those specific areas mentioned above. The Journal publishes standard papers, essay reviews, technical reports and forum articles:

Standard papers – reporting original research;

Technical reports – on methods, techniques and apparatus of general interest;

Essay reviews – short reviews on topical subjects of general interest;

Forum papers – short articles presenting new ideas, opinions or responses to published material, with a hope of stimulating lively debate.

Manuscripts should be in English and should be submitted in triplicate, including three copies of the tables and figures, to the appropriate Editor:

For predominantly zoological material:
Professor Peter Calow
Department of Zoology

Sheffield S10 2TN
United Kingdom

For predominantly botanical material:
Dr John Grace

Full instructions to contributors can be found at the end of each volume or may be obtained from the Editors.

One hundred offprints of each paper will be provided free of charge and additional copies may be ordered when proofs are returned. A scale of charges will be sent with the proofs.

**Subscription information.** *Functional Ecology* is published quarterly. The 1987 subscription price is £77.00 (UK), £92.50 (overseas) and $152.50 (North America and Japan) post free. Subscription orders and orders for back issues should be sent to Blackwell Scientific Publications Ltd, PO Box 88, Oxford, United Kingdom. The Journal is delivered to North America by air freight and subscribers there can expect to receive their copies within two weeks of British publication. Second-class postage paid at New York, NY. Postmaster, send address corrections to *Functional Ecology*, c/o Expediters of the Printed Word Ltd, 515 Madison Avaneue, New York, NY 10022. Current issues for the Indian sub-continent, Australasia and the Far East are sent by air to regional distribution points from where they are forwarded to subscribers by surface mail. Any back numbers are normally despatched by surface mail to all regions, except North America and India, where they are sent by air freight.

1 Editorial

3 Midday wilting in a tropical pioneer tree
N. R. CHIARIELLO, C. B. FIELD & H. A. MOONEY

13 Relationships between trophic niche breadth and reproductive capabilities in a population of *Proasellus coxalis* Dollfus (Crustacea: Isopoda)
A. BASSET & L. ROSSI

19 Penetration of dry soil by roots of *Dactylis glomerata* L. clones derived from well-drained and poorly drained soils
J. R. ETHERINGTON

25 Basal metabolic rates in mammals: allometry, phylogeny and ecology
M. A. ELGAR & P. H. HARVEY

37 Growth of *Betula pubescens* and *Pinus sylvestris* seedlings in a subarctic environment
P. S. KARLSSON & K. O. NORDELL

45 Life-history flexibility as a strategy for survival in a variable environment
D. J. BAIRD, L. R. LINTON & R. W. DAVIES

49 Is anoxia tolerance related to flooding tolerance?
K. V. FAGERSTEDT & R. M. M. CRAWFORD

Essay Reviews

57 Towards a definition of functional ecology
P. CALOW

63 The functional ecology of clonal animals
R. N. HUGHES
